

Hung's Fortune International Co., Ltd.

Inspirational Solutions

Who We Are

Founded in 2003 by Sam Hung, Hung's Fortune International (HFI) combines over 20 years of textile expertise with strong heritage of the Lea Lea & Li Peng Group.

Driven by innovation, HFI develops functional, high-performance, and sustainable textile solutions for global outdoor, active, and lifestyle brands. Through premium quality, advanced technology, and trusted partnerships, we build lasting relationships and deliver long-term value.

HFI Golden Triangle

Why Partner with HFI

- ✓ Inspirational Solutions
- ✓ From Chips to Finished Textiles
- ✓ Permanent Yarn-Based Performance
- ✓ Market-Driven Innovation
- ✓ Advanced Coating & Lamination Expertise
- ✓ Family connection with Lealea & Li-Peng

Strategic Investment

Strengthening Our Manufacturing Capabilities

HFI's strategic investment in  Top Gear Leather Co., Ltd. further strengthens our vertically integrated manufacturing capabilities.

- 30+ years of PU synthetic leather expertise.
- Advanced coating, lamination & membrane technologies.
- Expanded functional textile manufacturing capacity.
- Supporting future market demands through continuous innovation.

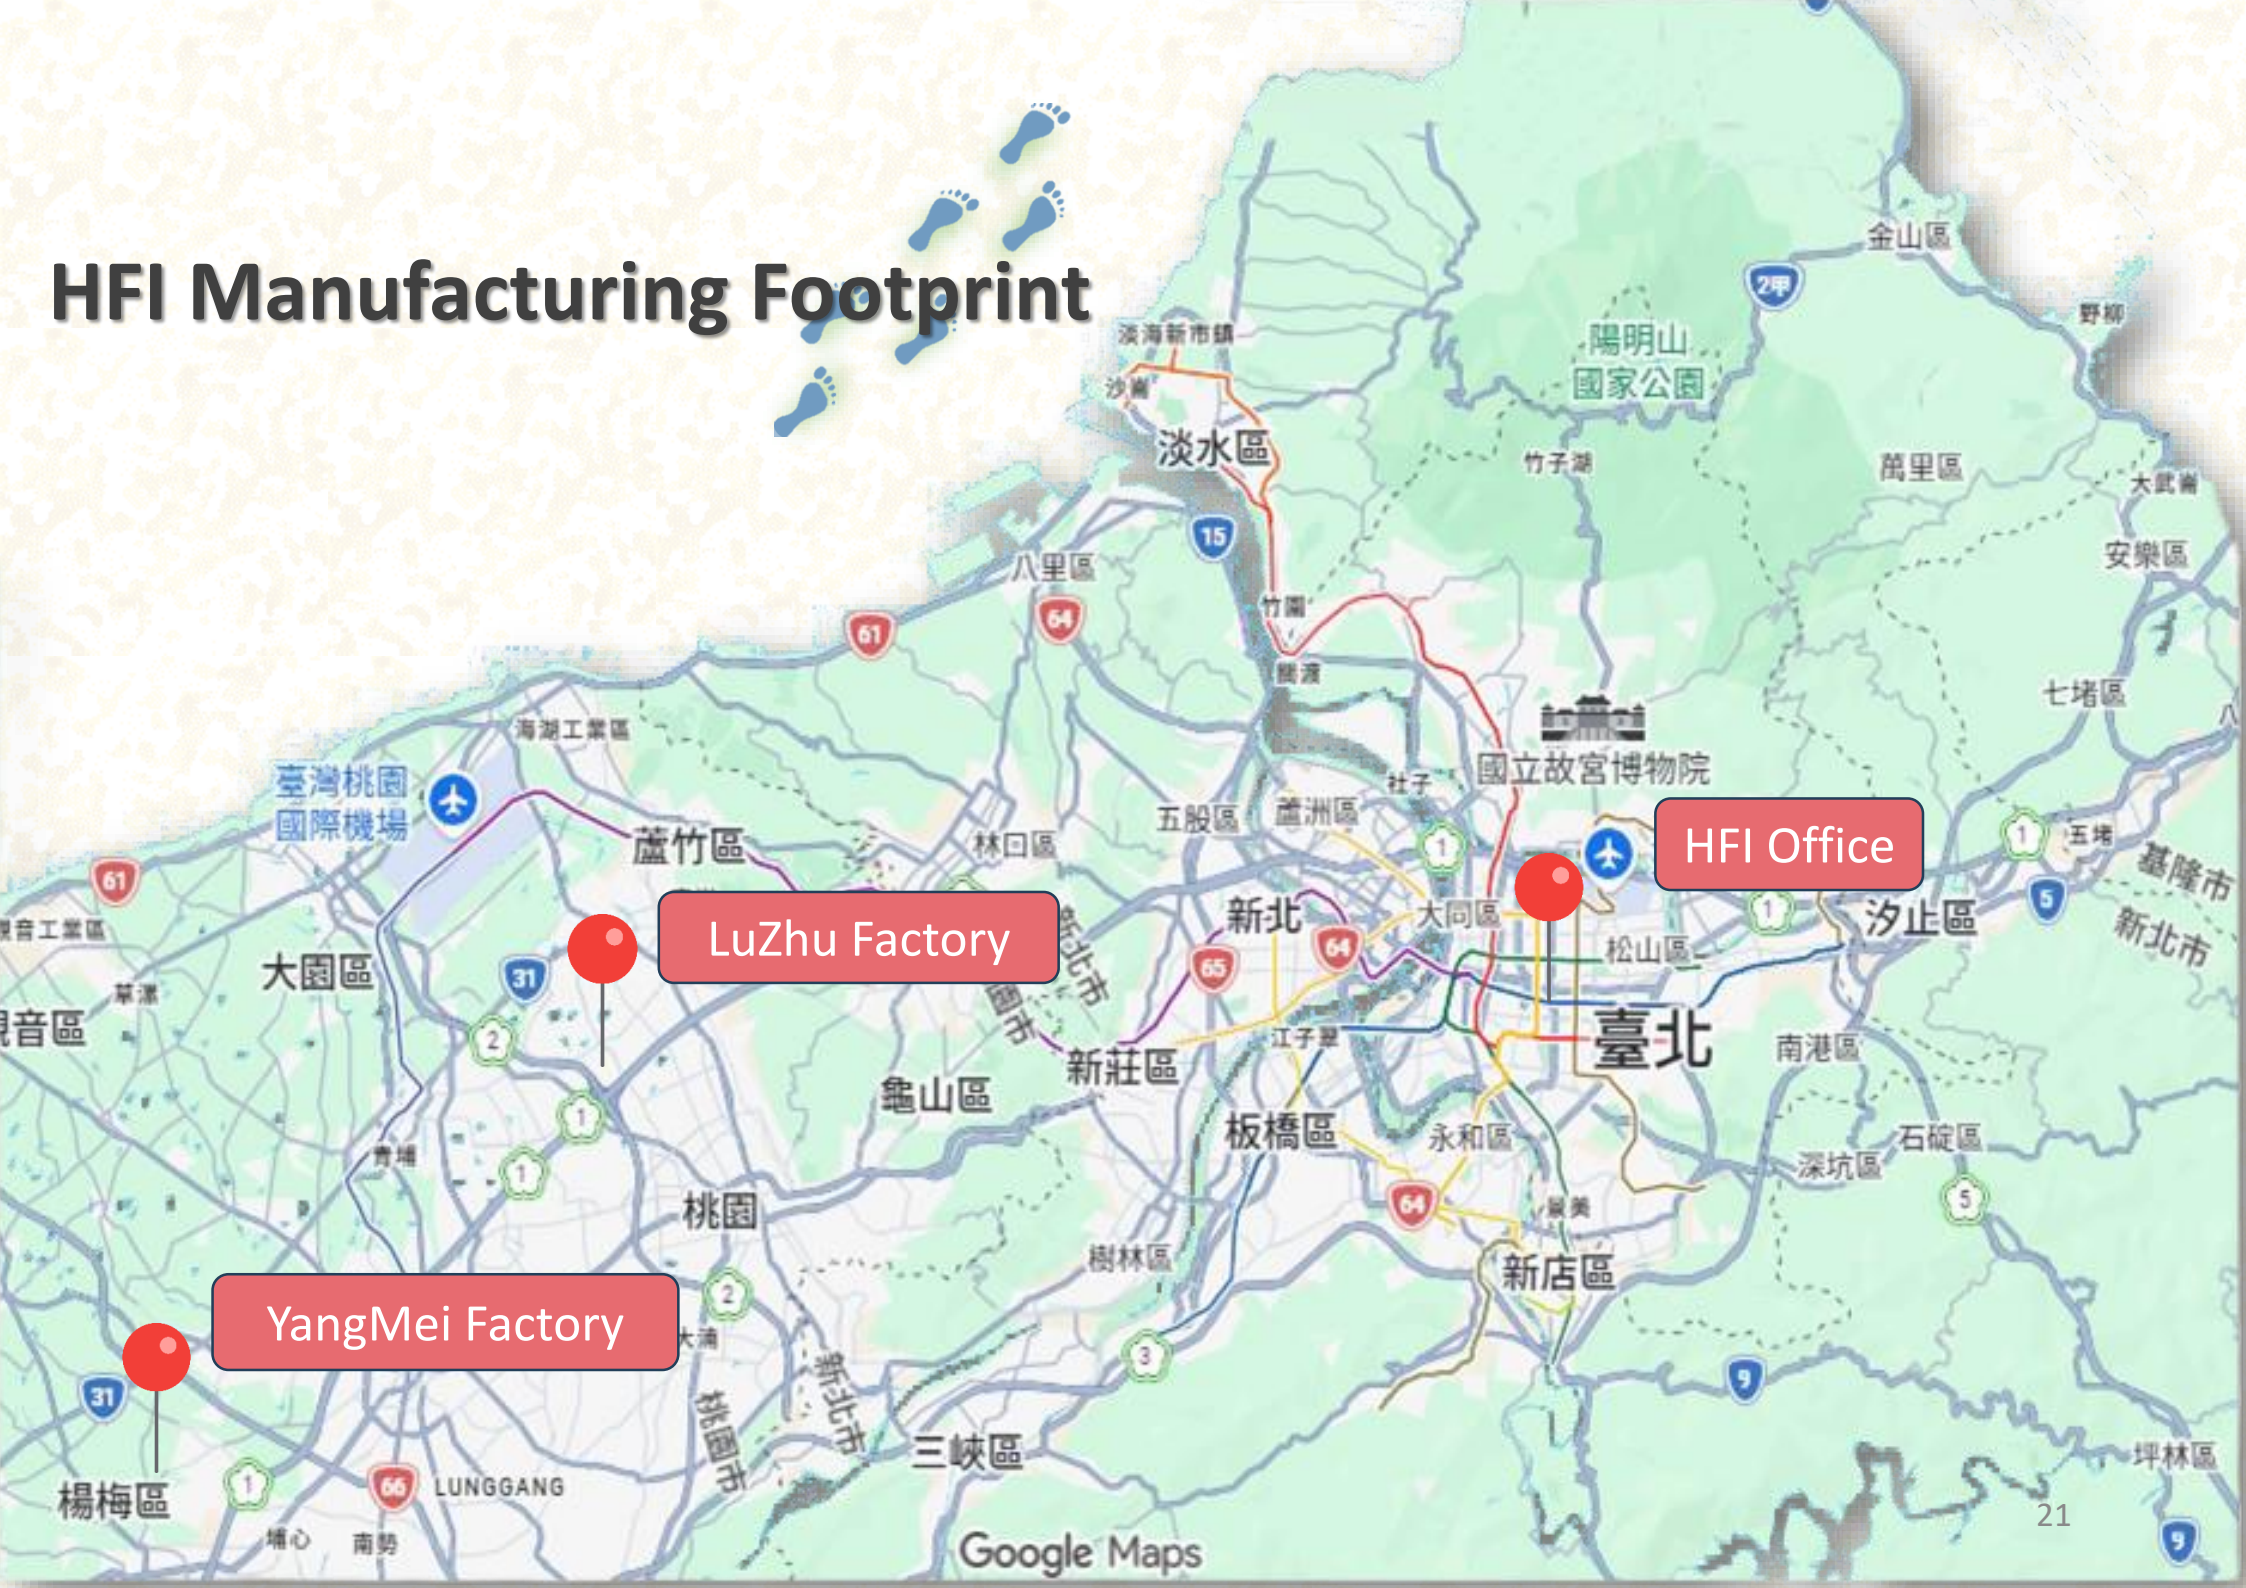

HFI Coating/Lamination Facilities-

- LuZhu Factory
- YangMei Factory

We are equipped with HFI's in-house coating and lamination facilities, allowing *full* control over quality, lead time and production flexibility.

HFI Manufacturing Footprint

New Yangmei Plant

Strengthening HFI's integrated manufacturing capabilities.

Sustainability

Sustainability is embedded in everything we do.

From certified materials to responsible manufacturing, HFI delivers sustainable textile solutions supported by globally recognized certifications.

HUNG'S FORTUNE INTERNATIONAL CO., LTD.

Global Manufacturing Network

Taiwan:

- R&D
- Yarn to Finishing
- Functional Textile Development

Indonesia:

- Yarn to Finishing
- Large-scale Production
- Scalable Manufacturing
